These prasis to further study and gressive approach under C) module, to build these these core skills are th nal communication, tec rogramme are tabled be rated by:	Key skills will be demonstrated by the ability to:
	Personal organisation and t	-	Meet converging assessment deadlines – based on
	achieve research goals	and maintain solid	punctuality and organisation with reference to class,

performance levels.

Understanding of the importance of attaining in-

group and individual sessions within a dynamic and flexible learning environment with variable contact

using

clearly

hours and forms of delivery.

Communicate

appropriate

depth knowledge of terminology as used in a given topic area, as a basis to further study.	nomenclature to enhance meaning in all oral and written assessments with no recourse to collusion or plagiarism.
Understanding, knowledge and application of appropriate and effective methods of communication to meet formal assessment measures.	Present clearly, coherently and logically in a variety of oral and written formats using a variety of appropriate qualitative and quantitative tools and evidence bases.
Understanding and knowledge as to the development of the industry and/or scholarship in relation to a given topic under study.	Demonstrate an understanding of the current themes of a given topic, the academic and practical foundation on which they are based – demonstrated by a lack of plagiarism and need for collusion in both individual and group work.
Understanding of the rules applying to plagiarism and collusion.	Collate, summarise, reason and debate/argue effectively on a given topic with appropriate reference to another's work or ideas/concepts.
Ability to work as an individual, in a small team and in a larger group to effect data collation, discussion and presentation of evidence.	Meet and succeed in each of the varied assessments presented.

### Specific:

Module-based LOs relating to Level 4 Tourism Management are described as Specific LOs and combine to make up the Intended LOs of the programme/stage of study. Specific LOs for a module are fully expressed in the relevant DMD and Module Guide (MG). Specific LOs for the majority of modules are blended from the relevant and current University Module Outlines at FHEQ Level 4 to ensure parity. See Appendix 4 in this document.

#### Intended:

Each programme/stage of study incorporates a set of Intended LOs to define the wider academicbased knowledge and skills acquisition. These key areas are described and tabled below:

А	Knowledge and Understandi	ng	
	Knowledge and understanding of:	Teaching/learning methods and strategies:	Assessment
	<ul> <li>A1 Analyse processes, procedures and practices of effective business management;</li> <li>A2 Interpret business information and evaluate its potential to facilitate informed decision-making</li> <li>A3 Research the complexity of the local, national and international external environments in which organisations operate;</li> <li>A4 Review ethical considerations in the management of business and organisations;</li> <li>A5 Examine key tourism management practices and underlying theory.</li> </ul>	Acquisition of knowledge and understanding learning outcomes is achieved through a combination of lectures, group seminars, one-to-one tutorials, IT workshops and project work. Throughout, the students are encouraged to undertake independent reading to supplement and consolidate their learning, and broaden their individual knowledge and understanding of the subject.	Knowledge and understandi are assessed through a combination of examination and assessed coursework. Assessment, which is both formative and summative, c take the form of essays, case studies, reports, seminar papers, multiple choice tests portfolios (including a placement portfolio) and presentations.
В	Intellectual Skills Intellectual skills – able to:	Teaching (learning methods and	Accoccment
	intellectual skills – able to:	Teaching/learning methods and strategies	Assessment

	<ul> <li>B1 Structure and communicate ideas and arguments effectively in writing;</li> <li>B2 Research information and reference source materials consistently and accurately using the Harvard Referencing System;</li> <li>B3 Solve business problems and make business decisions using appropriate information and techniques.</li> </ul>	Cognitive/intellectual skills are developed throughout the taught curriculum, in lectures, in related directed learning, and practiced through in-class exercises (individual and small group tasks) set during seminars, tutorials and workshops. Students are taught research and study skills as part of their curriculum, enhancing their abilities as independent thinkers and equipping them for the higher level learning required as they progress.	Intellectual skills are assessed through examinations and in- course assessments and demonstrated by the research and evaluations that students produce in reports and essays throughout the programme.
C	Practical Skills Practical skills – able to:	Teaching/learning methods and	Assessment
	C1 Demonstrate competence in written and oral communication skills C2 Demonstrate competence in numeracy, computing and IT skills C3 Demonstrate competence in interactive and group skills	strategies Practical skills are developed throughout the programme by the methods and strategies outlined in sections A and B above.	Skill C1 is assessed through essays, reports, presentations, student-led seminars and examinations. Skill C2 is assessed within specific modules, and more integrally, as part of learning and assessment strategies throughout the programme. Skill C3 is assessed by group- based coursework, group presentations and poster presentations, and includes the use of wikis and/or student logs and reflections to ascertain individual contributions.
	Transferable Skills	To all the floor main and the day and	A
	Transferable skills – able to:	Teaching/learning methods and strategies	Assessment
	<ul> <li>D1 Recognise and prepare for career opportunities within the workplace</li> <li>D2 Display competence in problem solving skills</li> <li>D3 Demonstrate an ability to work effectively in teams and independently</li> <li>D4 Demonstrate the ability to use academic, enterprise and employability skills in both scholarly and work- based environments.</li> <li>D5 Operate in the dynamic global arena and to appreciate contemporary and cross-cultural difference.</li> </ul>	Transferable skills are developed through the programme by the methods and strategies outlined in sections A, B and C above. Skills D1 and D2 are developed particularly through the Career Planning modules in Level 5 and encouraged throughout the programme. Skills D3 and D4 are developed and promoted through the programme, most notably in the seminar-based work. Throughout, the learner is encouraged to develop transferable skills by maintaining a record of evidence and completing a personal development plan.	The Career Planning module require a portfolio of work for assessment, in which students demonstrate, through the completion of a variety of tasks, their knowledge of career opportunities within their industry, and the relevance of their academic skills to the workplace. Tasks also include role-play to prepare for the recruitment process and working in the business environment. Transferable skills are assessed through coursework, but particularly by case studies and problem-solving. Problem solving exercises are used for formative and summative assessment in a variety of

Assessment	Summary
Regulations	Summary: The programme is compliant with both the generic assessment regulations of Navitas UK and those of the College, see CPR QS9.
	Each module within the programme/stage of study has an associated Module Outline that may be broadened into a Definitive Module Document (DMD), either of which will be provided to students at the beginning of their studies. These documents offer generic information on the Aims and Specific LOs of the subject(s) under study, basic references and the attendance and notional contact requirements. They also include topics/subject areas of study and outlines of the assessment events.
	Each module has an associated textbook, as prescribed by the University's Module Outlines, and a specifically developed Module Guide (MG) or Introductory Module Guide (IMG) which includes the types of assessment activities employed, teaching methods, resources, assessment criteria and expectations, contact details of the tutor(s), referencing (if applicable) and submission/completion requirements. Contained is also a detailed lecture-by-lecture schedule of subjects students can be expected to cover over the teaching period. This acts as a useful reference for study and revision purposes. All assessments are designed to reflect and measure both an individual's and a cohort's achievement against the Specific LOs of the module and Intended LOs of the programme.
	In-course written, reading, listening and oral assessments are built into all modules through general interaction between tutors and students, student peer review and small group tutorials or individual tutorials/appraisals. Modes of assessment include essay/report writing, oral presentation (group or individual, and poster), portfolio, and e-based, in-class or take home exercises/tests.
	All written assessments must follow certain criteria in style and submission as noted in the relevant Module Guides and Student Guide. This form of assessment is considered fundamental to a student's ability to communicate ideas and evidence with clarity, relevance and logic in a planned and organised manner. Plain writing style, syntax and grammar are core skills that can be enhanced to support the maturing of individual students' composition and thus academic and transferable proficiency.
	Oral presentations, whether part of formal or informal assessment practice, are encouraged within all modules as they promote, among others, transferable skills and can identify those students who may be plagiarising material. It is advised, however, that they should not make up more than 60% of the final module mark unless as part of the learning rationale. Oral group presentations should ideally contain no more than five (5) students, unless specific reasoning is applied. Each member, irrespective of their role, should be awarded the same mark unless where obvious differentiation arises, for management of this process see CPR QS9. This form of expression should not be allocated more than fifty (50) minutes per group, with less than a 30% weighting. Time limits must be upheld by tutors so as to ensure all students have the same opportunity to perform. Furthermore, tutors ought to notify students as to the materials available to them before preparation takes place.
	Final summative examination normally adheres to closed-book, invigilated, timed conditions and takes place during allocated exam periods of a programme. It represents a more abstract measure of a student's achievement as a consequence of the Specific LOs associated with a module. It is utilised as a key measure of quality in teaching standards and provides a basis to aspects of delivery and environment which takes place at the conclusion of a semester by College academic services, see CPR QS9. Marks indicated in the relevant DMDs cannot be referred. Only in extenuating circumstances, sickness, personal tragedy or in the possibility of a clerical error, will deferral take place, see CPR QS9.
	Formal assessment modalities (coursework and examination, respectively), combine to produce the weightings applied to any given module. Successful completion of a module is based on attaining the required overall pass grade prescribed. The assessment mode for a given module is based on the desired Specific LOs, their expressions can be found in the relevant DMD. Students must be briefed at the beginning of each module as to which weightings are in use. They should also be clearly advised as to the marking criteria and, hence, the achievement requirements for each grade cluster.

	Where a student has a special need or disability, appropriate steps must be taken by the College, academic staff and/or internal/external invigilators to ensure that the need is recognised and a justified outcome identified, see CPR QS9.
	Demonstration of achievement: Students must pass all modules at the prescribed grade in order to progress to the next stage of their educational continuum, see Progression Criteria, below.
	Categories of performance and grading levels: A and A*(High Distinction) – Distinctive level of knowledge, skill and understanding which demonstrates an authoritative grasp of the concepts and principles and ability to communicate them in relation to the assessment event without plagiarism or collusion. Indications of originality in application of ideas, graphical representations, personal insights reflecting depth and confidence of understanding of issues raised in the assessment event. B and B* (Distinction) – Level of competence demonstrating a coherent grasp of knowledge, skill and understanding of the assessment and ability to communicate them effectively without
	plagiarism or collusion. Displays originality in interpreting concepts and principles. The work uses graphs and tables to illustrate answers where relevant. Ideas and conclusions are expressed clearly. Many aspects of the student's application and result can be commended. C (Credit) – Level of competence shows an acceptable knowledge, skill and understanding sufficient to indicate that the student is able to make further progress. The outcome shows satisfactorily understanding and performance of the requirements of the assessment tasks without plagiarism or collusion. Demonstrates clear expression of ideas, draws recognisable and relevant conclusions.
	D (Pass) – Evidence of basic competence to meet requirements of the assessment task and event without plagiarism or collusion. Evidence of basic acquaintance with relevant source material. Limited attempt to organise and communicate the response. Some attempt to draw relevant conclusions.
	F (Fail) – The student's application and result shows that the level of competence being sought has not yet been achieved. The assessed work shows a less than acceptable grasp of knowledge, skill and understanding of the requirements and communication of the assessment event and associated tasks.
	Generic marking criteria: Response – the response must address all parts of the question, that is not just a part or parts of the question. A response that is not specifically tailored to the needs of the question will not be accepted.
	Structure – the student has identified the main issues of the question and attached the appropriate emphasis to them; has stated their agreement accurately and in some detail; and has utilised the supporting data.
	Context – the student has displayed knowledge of the basic subject matter under assessment; has included only relevant material where required; has provided a written agreement or mathematical/numerical/diagrammatic/modelled statement and, in doing so, has addressed all aspects of it in reaching a conclusion; and has provided a clear understanding of a question in reaching a conclusion.
	Presentation – due credit, specified as a percentage of the marking criteria, will be given for a succinct and fluent writing style.
	Illegible material will not be given due credit, specified as a percentage of the marking criteria. Penalty – a student will be penalised if they have not tackled each issue of a question separately, stating their agreement and or rationalised progression, and then applying this to the facts; and
	will be penalised for not providing evidence of academically based reasoning in an answer. Sources – the student should provide accurate referencing; it is essential that a student does not
Moderation	plagiarise from any source, see CPR QS9.
woueration	Summary: 10% sample of all assessment components by a subject specialist.
Progression Critoria	External Examiner where necessary.
Progression Criteria	Summary: minimum pass mark of 40% achieved for all modules. Summary: a student may not fail a module on more than two (2) occasion, failure of the module
Failure to Progress	once requires that a student re-take the entire module at full cost; failure of a student to complete a module on the re-take of that module will result in referral to the College Learning and Teaching
	Board for a student management decision. The University will not be incumbent to progress
	students who fail.

Entry Requirements	One or more GCE A Levels with a minimum of 48 UCAS points (new UCAS points system 2016
	onwards); or international equivalent (see CPR QS3). Language ability to the level of CEFR B2 is
	required, e.g. IELTS 5.5 (with no less than 5.5 in each band).
Appendix 1	Intended Learning Outcomes in the constituent modules – table inserted indicating direct mapping
	of LOs per module.
Appendix 2	Delivery schedule incorporating notional, contact and self-directed hours of study applied to each
	module and therein the programme.
Appendix 3	Module conversion codes and descriptors and module mapping by pathway.
Appendix 4	University Module Outlines for cross-check and parity.
Appendix 5	College DMDs.

### **Development of Pathway Learning Outcomes in the Constituent Modules**

This map identifies where the programme learning outcomes are assessed in the constituent modules. It provides (i) an aid to academic staff in understanding how individual modules contribute to the programme aims (ii) a checklist for quality control purposes and (iii) a means to help students monitor their own learning, personal and professional development as the programme progresses.

Key: Learning Outcome which is assessed as part of the module  $\,\sqrt{}\,$ 

#### Key to Programme Learning Outcomes

#### **Knowledge and Understanding**

A1. Analyse processes, procedures and practices of effective business management;

A2. Interpret business information and evaluate its potential to facilitate informed decision-making

A3. Research the complexity of the local, national and international external environments in which organisations operate;

A4. Review ethical considerations in the management of business and organisations;

A5 Examine key tourism management practices and underlying theory

# Intellectual Skills e.g.

B1. Structure and communicate ideas and arguments effectively in writing

B2. Research information and reference source materials consistently and accurately using the Harvard Referencing System

B3. Solve business problems and make business decisions using appropriate information and techniques

#### **Practical Skills**

- C1. Demonstrate competence in written and oral communication skills
- C2. Demonstrate competence in numeracy, computing and IT skills
- C3. Demonstrate competence in interactive and group skills

## Transferable Skills

- D1. Recognise and prepare for career opportunities within the workplace
- D2. Display competence in problem solving skills
- D3. Demonstrate an ability to work effectively in teams and independently
- D4. Demonstrate the ability to use academic, enterprise and employability skills in both scholarly and work-based environments
- D5. Operate in the dynamic global arena and to appreciate contemporary and cross-cultural difference.
